

Church Weddings in Gibraltar

Church weddings in a number of religions or denominations have full legal recognition in Gibraltar and you will not need to have a separate civil wedding.
Documents Required

No matter what church you chose to marry in you will need to comply with all the civil requirements and hold a Special Marriage Licence issued by the Gibraltar Registrar before the marriage can take place.

The normal paperwork and procedures for an overseas wedding within your religion must also be followed.

See general information about the requirements of the Roman Catholic Church and other religions, but you will also need to contact the clergy in your chosen venue well in advance to determine if they have any special requirements.

Roman Catholic Weddings

In general churches will require at least three months notice of a wedding. Roman Catholicism is the predominant religion in Gibraltar and here are a number of Catholic Churches throughout the Island. By far the most popular with overseas couples is the imposing and centrally located Cathedral of St Mary.
